Bob

I checked with Ron Hoffman today re
Progress Payments. His line, as expected, was
that our accounting system must be approved by
the government. However, skipping that point,
Progress payment requests are submitted monthly
for charges, salaries etc actually incurred but
without profit or fee. Then they usually pay
90% of the request within two weeks. The
balance including fee is normally paid on completion
of contract. However they may hold 10% back
until the Army approves the completion of the
contract which may take some period of time.

Please review attached material and
advise me how you desire to handle the
request for information on organization charts,
and how the business is organized

Thanks
Kirby

P.S. The item I accepted was shipping
instructions.
